Farming on poor land or in localities where drought, hailstorms or other climatic disturbances are prevalent does Harvey, delegate to co greatfrom Oknot pay A good year does not compeniahoms, has introduced a billauthorizsate for the several bad ones to which it is neighbor. It has now been clearly demonstrated that for wheat, oats, barley and live stock the successful farm.

The bill is as follows:

ley and live stock the successful farmers are those who have gone north and west. Their wheat yield is heavier, their cattle of larger size and better condition than any raised by their southern friends. Not only is this so in the United States, but our Canadian cousins find themselves with unexpected wealth in their new provinces of Manitoba, Alberta, Assimbola and Sas and set again to the United States, and the provinces of Manitoba, Alberta, Assimbola and Sas and set agart to the Cherokee countries of the States (and themselves with unexpected wealth in their new provinces of Manitoba, Alberta, Assimbola and Sas Whereas, In pursuance of an act of congress approved May 22, 1872, the said tanks seer approved May 22, 1872, the said tanks seer appraised by commissioners duly authorized and empowered in that behalf and the price tixed by the president at forty-seven and forty nine one hundredth cents per acre; and they had nover looked upon such wheatfields before," and the St. Paul Journal speaks of that country as "The future granary of the world, which, with beckoning fingers, invites the home hungering people of the congested east to its hospitable and rich domain."
